Drais Energy Nigeria Limited is a fully indigenous company providing comprehensive Engineering, Procurement, Installation, Construction, and Commissioning (EPICC) services to the Oil & Gas and Energy sectors. We combine global best practices with deep local expertise to deliver efficient and sustainable solutions that meet client objectives and regulatory requirements. We are positioned at the forefront of Engineering, Procurement, Installation, Construction, and Commissioning (EPICC) services across Nigeria's energy landscape. Established to provide world-class solutions that align with global industry standards, Drais Energy delivers integrated technical and procurement services that ensure safety, reliability, and cost-effectiveness on every project.

With a team of seasoned professionals and a commitment to excellence, we support our clients through every stage of project execution — from concept design and material sourcing to construction and commissioning. Our operations are guided by strong corporate governance, compliance with the **Nigerian Oil and Gas Industry Content Development (NOGICD) Act**, and an unwavering dedication to sustainable development.

Our Mission

To deliver innovative, reliable, and value-driven engineering and procurement solutions that advance Nigeria's energy infrastructure while promoting local capacity development.

Our Vision

To become a leading indigenous engineering and procurement company recognized for technical integrity, operational excellence, and sustainable energy solutions.

Core Values

- **Integrity:** We uphold transparency and ethical standards in every transaction.
- **Innovation:** We embrace technology-driven solutions to improve efficiency and outcomes.
- **Safety:** We maintain a zero-incident culture across all operations.
- **Excellence:** We consistently exceed client expectations through superior service delivery.
- **Local Content Development:** We promote Nigerian workforce participation and knowledge transfer in every project.

Key Differentiators

- Proven capability to deliver turnkey energy solutions.
- Strong vendor network and OEM relationships for equipment sourcing.
- Robust QHSE management systems in line with international standards.
- Commitment to Nigerian Content and community development.
- Flexible project delivery model ensuring cost and schedule efficiency

Nigerian Content Commitment

As a proudly indigenous company, Drais Energy aligns its operations with the NOGICD Act. We prioritize Nigerian participation at every level of our project execution by:

- Engaging local manpower and subcontractors.
- Partnering with local suppliers and fabrication yards.
- Investing in training and skill transfer programs.
- Supporting host community development initiatives.

Health, Safety & Environment (HSE)

Safety is non-negotiable at Drais Energy. Our HSE policies are structured to ensure zero harm to personnel, environment, and assets. Continuous monitoring, compliance audits, and employee training remain key elements of our operational philosophy. At Drais Energy, quality and safety form the backbone of our operations. Our QHSE management systems align with ISO 9001 and ISO 45001 standards, ensuring our services are executed safely, sustainably, and to the satisfaction of our clients.

Quality Assurance

Our Quality Management System ensures that all materials and services conform to client specifications and international standards. We maintain rigorous inspection, testing, and documentation procedures across all project phases.

Clients & Project Experience

Drais Energy has provided services to clients within the Oil & Gas and Power sectors, supporting major projects in:

- Equipment procurement and logistics
- Electrical and mechanical installations
- Civil infrastructure upgrades
- Commissioning and maintenance activities
- Facility Maintenance and Management

OUR PARTNERS/OEMs

Closing Statement

Driven by excellence and empowered by local expertise, Drais Energy Nigeria Limited continues to expand its footprint in the energy sector — delivering projects that build value, enhance efficiency, and contribute to Nigeria's sustainable growth.
